Independent Cover Assessment

ZGF

Three Questions to be Answered

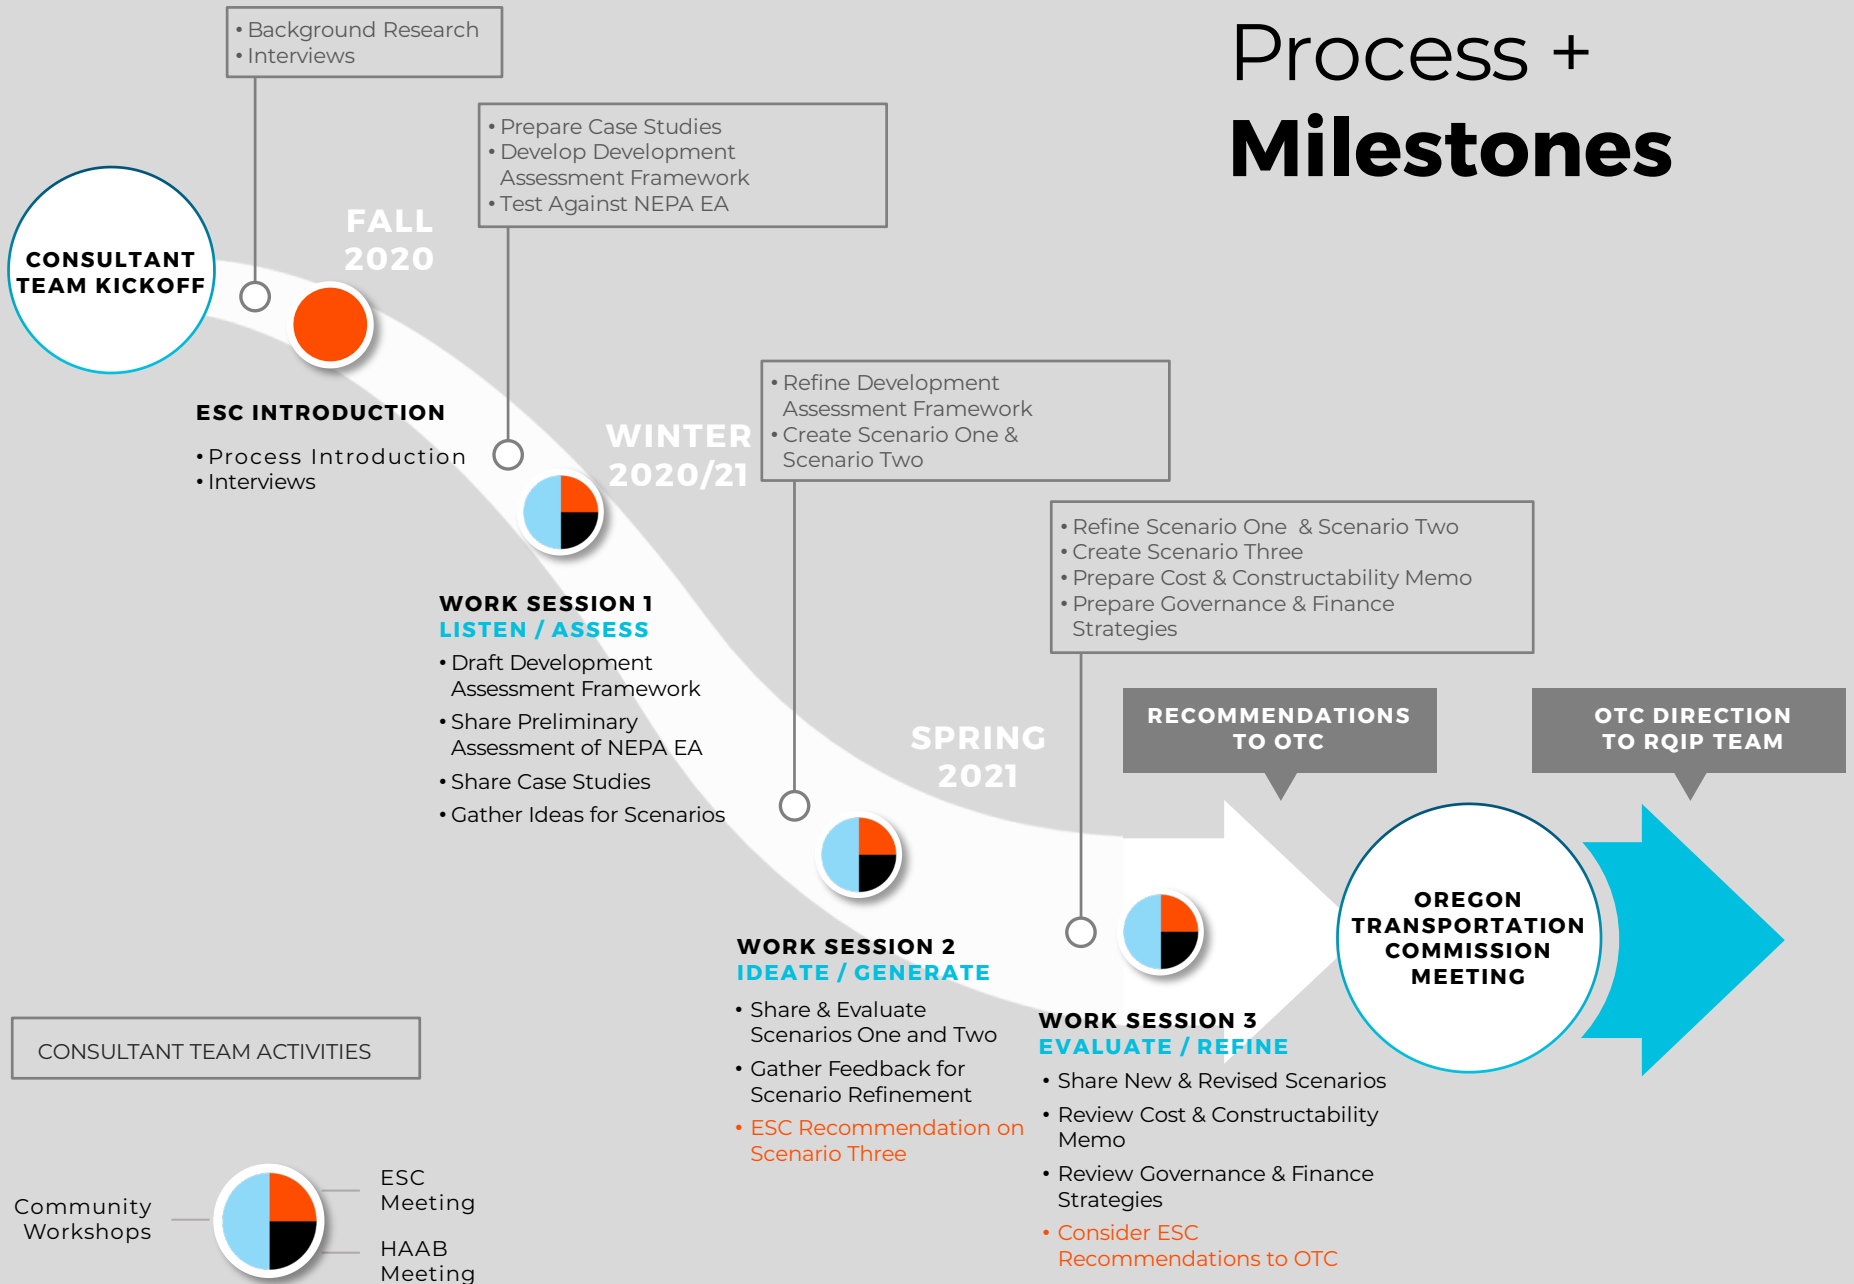

- 01** How can this project serve community aspirations on the highway covers and areas immediately adjacent to the highway covers, within area of potential impact as defined in the EA?
- 02** What modifications to the current design and configuration of the highway covers would be needed to reflect a broader community vision for development of the Project Area?
- 03** Are there other architectural and engineering considerations to feasibly promote economic development and growth potential, consistent with the community's vision?

Scenarios

- Base Case** The NEPA Environmental Assessment
- 01** Scenario One: Limited to the NEPA Environmental Assessment Area of Potential Impact (API)
 - 02** Scenario Two: May extend beyond the NEPA Environmental Assessment API.
 - 03** Scenario Three: Determined by the ESC.
